

Teach Professional Photoshop, Without Building It Yourself

A complete, ready-to-deliver intermediate curriculum that takes learners who already know layers, masks and Camera Raw to a professional standard in eight three-hour sessions: luminosity and channel masking, real color management, high-end retouching, commercial compositing, design systems, automation, and a client-style capstone. Every session ends with a finished, exported deliverable. Guides, slides, labs, practice files, workbooks, and answer keys included.

8

MODULES · 8 SESSIONS

INSTRUCTIONAL HOURS

ONE MODULE, ONE SESSION, ONE FINISHED PIECE

SESSION	MODULE	LEARNERS LEAVE WITH
S1	1 · Advanced Selection & Masking	A hard cutout: flowing hair, every strand kept
S2	2 · Color & Tone, Deep	A graded, split-toned image delivered for screen and soft-proofed for print
S3	3 · High-End Retouching	A finished natural portrait: skin, form, eyes, teeth, hair
S4	4 · Commercial Compositing	A composite key visual: placed, lit, shadowed, graded as one
S5	5 · Design Systems & Type	A campaign of every size from one master file
S6	6 · Generative + Automation	A data-driven batch from one template, plus a delivery Action
S7	7 · Multi-Shot Techniques	A panorama, HDR merge, focus stack and a looping animation; capstone brief started
S8	8 · Capstone	A client-style project against a brief, with a case study, presented

WHAT YOU GET

◆ FOR EVERY MODULE (×8)

- ◆ **Facilitator guide:** timing, live-demo scripts, the mistakes to pre-empt, checks for understanding
- ◆ **Participant workbook:** objectives, worked examples, write-in exercises, self-check quizzes
- ◆ **Answer key:** every quiz answered and explained, plus lab reference notes
- ◆ **Slide deck:** a self-contained projector deck (no software to install)
- ◆ **Labs with practice files:** generated, royalty-free images you can hand straight to learners

◆ ACROSS THE KIT

- ◆ **8-session syllabus** (3 hours each) in web and print formats: weekly, twice-weekly, or a 4-day intensive
- ◆ **Student setup guide**, including what photos to bring to each session
- ◆ **Final capstone assessment:** four project options, a 12-row rubric quoting the course's own checklists, a peer-critique protocol, and a scoring sheet
- ◆ The live course website, with 23 lessons and a **28-card Recipes II library** learners keep using after class
- ◆ **Print-ready PDFs** throughout: hand out or project

WHY INSTRUCTORS CHOOSE IT

- ◆ **Minimal prep to teach.** The facilitator guide scripts each lesson: timing, demos, and the mistakes intermediate users actually make. Walk in and deliver.
- ◆ **The step from competent to professional.** It picks up where a beginner course stops, and every session ends in the kind of deliverable a client or employer asks for: a hard cutout, a soft-proofed grade, a campaign in every size, a data-driven batch.
- ◆ **Diagnose before you edit.** Histograms, channels, color settings and light direction are read before a single slider moves, a habit threaded through all eight sessions.
- ◆ **Current and responsible.** Generative tools are taught as raw material for compositing, with limits, ethics, licensing and disclosure. Retouching is taught with consent and restraint.
- ◆ **No image licensing headaches.** Labs use generated practice files and learners' own photos, so there's no stock to license for your class.
- ◆ **Flexible delivery.** Weekly for eight weeks, twice a week, or a 4-day intensive. A natural next course after an introductory Photoshop class.

WHO IT'S FOR

Independent trainers

Community colleges & CE

Corporate L&D & marketing teams

Libraries & makerspaces

Workforce & career programs

Design & photo programs

LICENSE & PRICING

SOLO

\$499 one-time

One named instructor · unlimited students

- ◆ Full kit, all 8 modules
- ◆ Print the workbook for your class
- ◆ Perpetual license

MOST POPULAR

ORGANIZATION

\$1,997 one-time

Multiple instructors at one org

- ◆ Everything in Solo
- ◆ Unlimited instructors, one organization
- ◆ Best value per seat

WHITE-LABEL

\$4,997 one-time
